Solid Concepts Named Finalist in Best Employers to Work For in Santa Clarita

Santa Clarita Valley, CA, May 2009 – Solid Concepts Inc. was recently selected as one of the Best Employers to Work for in the SCV Competition. This competition is a way for Santa Clarita and surrounding San Fernando area to highlight local employers from different industries who exemplify best employer practices. Qualifying companies are divided into three categories deemed by the size of the company and are judged based on a combination of employee surveys, executive interviews and site tour.

Solid Concepts distinguished itself as a top workplace when it scored exceptionally well in numerous categories including company culture, opportunity for employee growth, training and development, benefits, compensation and work life balance. With generous benefits packages, educational programs, widespread company values and competitive compensation, Solid Concepts outshined hundreds of companies as one of the best places to work in Southern California.

Solid Concepts was recognized and honored as one of eight finalists at the Best Employers to Work for in SCV awards reception in May 2009. The ceremony was hosted by Santa Clarita Valley at the Valencia Hyatt Hotel in Valencia, CA.

Founded in 1991, Solid Concepts supplies rapid prototyping, direct digital manufacturing, tooling and injection molding services. Solid Concepts has grown steadily to a five-facility, multiple technology company known to be a solutions provider with project management and engineering expertise. Capabilities in PolyJet™ high precision 3D printing, Stereolithography (SLA) models and patterns, HDLS (High Definition Stereolithography), Selective Laser Sintering (SLS), Direct Digital Manufacturing, CNC models and patterns, and QuantumCast™ advanced urethane castings, allows for low-volume production of plastic, urethane, and metal components directly from design data, resulting in significant time and cost savings. Capabilities in tooling and injection molding make Solid Concepts a one-stop source to bring concepts from prototype to finished product ready for market. ISO 9001:2008 and AS9100 Rev. B certified.
